Unclassified ³	\$36.79	\$87.07	\$33.09	\$39.65	(\$27.80)
Totals	\$37.25	\$41.73	\$45.91	\$50.01	\$49.67

Most recent month's demographics were used to create statistics for each year.

¹ Enrollee is defined as anyone enrolled in Medicaid or CHIP at least one month in the fiscal year.

² Improvements in re-tagging with TPL has classified more persons into children, previously reported in CHIP I. Previous years have been adjusted to reflect this, compared to prior reports.

³ Unclassified are claims that were unable to determine category because the combination of age and aid category was indeterminant at the time of the claim classification.
